ELECTRIC, WATER AND SEWER DEPARTMENTS

3 INDUSTRIAL LOOP DRIVE • PO BOX 1589 • HANNIBAL, MISSOURI 63401-1589

ELECTRIC SERVICE RATE SCHEDULE

Effective July 1, 2011

GENERAL RATE PROVISIONS

Connection Charges

A connection or transfer charge as determined in the HBPW Schedule of Fees and Charges will be charged for new connections or transfers.

Billings

All bills will be rendered monthly and shall be payable at net through the due date shown on the bill. Bills paid after the due date shall be subject to a late payment penalty as determined in the HBPW Schedule of Fees and charges.

Delinquency and Disconnection of Services

If any bill is unpaid after the due date, the customer will be considered delinquent and service is subject to disconnection. Reconnection charges as determined in the HBPW Schedule of Fees and Charges shall be paid by the delinquent customer before service is restored. Refer to the Disconnection Policy, for more detail.

Sales and Use Taxes and Transfer Fee

The current Missouri Sales and Use Tax, County, and City Sales Tax applicable to nonexempt service rendered will be added to the monthly bills calculated under these rate schedules. A 5% City Transfer Fee on usage and demand will be added to the monthly bills.

NE Mo Sheltered Workshop Fee

The current NE Mo Sheltered Workshop Fee will be added to the monthly bills calculated under these rate schedules until August 30, 2012.

Service outside Hannibal City Limits

Service outside the City limits of the City of Hannibal is subject to a surcharge of 35% on the monthly usage charge.

Resale

Service shall not be taken under these rate schedules for the purpose of resale. HBPW reserves the right to refuse service to customers not in compliance with this provision.

Interference

Use of electric service which causes disturbances on the electric distribution system and interference with service to other customers will not be allowed. HBPW reserves the right to refuse service to customers not in compliance with this provision.

Adherence to Codes and Rules

Connected wiring, electrical installation, and equipment must be in accordance with applicable electrical codes and the rules of HBPW. HBPW reserves the right to refuse service to customers not in compliance with this provision.

Rate Class Assignment

Rate classification for new accounts will be assigned based on projected usage information furnished by the customer. Existing accounts will be reviewed by the HBPW for classification changes in June of each year based on the prior 12 months of usage history and the existing rate schedule. Classification changes will be effective with the July Billing. Any existing account changed by HBPW from an energy only rate class to a rate class affected by separate demand charges will be given six month notice by the HBPW prior to the implementation of such new rate.

Power Factor Correction

Customers agree to maintain average power factor as close to unity as possible. However, if customer's average power factor is less than 95 percent lagging, a separate power factor correction bill will be rendered monthly. The monthly demand billing will be adjusted by multiplying the actual 15-minute demand measured during the month by the ratio of 95% to the average power factor expressed in percent. The difference between actual and adjusted demand will be billed separately.

Discounts

Discounts are available to customers choosing options listed under voltage and metering options.

RESIDENTIAL SERVICE RATE

Available to a single family private residence or detached garage at the same address or farm as 60 cycle, single phase service at a nominal voltage of 120 volts or 120/240 volts, furnished through one meter for domestic purposes only, including lighting, domestic appliances, heating, and refrigeration, and other uses requiring single phase motors of 7.5 hp or less.

	RATE
All kWh during month	\$0.0903 per kWh
Customer Charge (within City Limits)	\$12.00 per month
Customer Charge (outside City Limits)	\$15.00 per month
Minimum Bill	Same as Monthly Customer Charge

Residential Service to a multiple dwelling or apartment house through a single meter is allowed, but service will be billed on the Residential Rate.

Service for residential and commercial purposes may not be combined through a single meter.

SINGLE PHASE COMMERCIAL SERVICE RATE

Available to any non-residential customer. Includes service at one location for general service as 60 cycle, single-phase service through one meter at the secondary voltage available from the electric distribution system at the customer's location.

	RATE
All kWh during month	\$0.09369 per kWh
Customer Charge	\$25.00 per month
Minimum Bill	Same as Monthly Customer Charge

THREE PHASE COMMERCIAL SERVICE RATE

Available to any non-residential customer. Includes service at one location for general service as 60 cycles, three-phase service through one meter at the secondary voltage available from the electric distribution system at the customer's location.

	RATE
All kWh during month	\$0.09369 per kWh
Customer Charge	\$40.00 per month
Minimum Bill	Same as Monthly Customer Charge

INDUSTRIAL SERVICE RATE

For any customer with average monthly energy demand during the most recent 12 months of 50 kW or more. Includes service at one location or multiple locations through multiple meters as 60-cycle, three-phase service, with secondary voltage as available at the customer's location.

Refer to Primary Voltage and Metering Options below.

RATE

The monthly bill shall be the sum of the demand, energy, and customer charges calculated according to the following schedule:

Demand Charge	\$13.25 per kW per month
Energy Charge	\$0.05287 per kWh
Customer Charge	\$100.00 per month
Minimum Bill	Same as Monthly Customer Charge

Determination of Billing Demand

The billing demand shall be the customer's highest 15-minute demand in kW incurred during the month for which the bill is rendered. For multiple meter customers the highest co-incident 15-minute demand will be used.

DISCOUNTS/INDUSTRIAL INCENTIVE PROGRAMS

New qualifying Industrial customers and existing customers with new qualifying loads are subject to Incentive Rates for the first forty-eight months of usage according the following schedule:

First 12 months of Billing	60% of approved demand and energy rate
Second 12 months of Billing.....	70% of approved demand and energy rate
Third 12 months of Billing	80% of approved demand and energy rate
Fourth 12 months of Billing	90% of approved demand and energy rate

Qualifications will be determined by the Board of Public Works on a case-by-case basis and will consider such things as an affirmative recommendation from the NEMo Economic Development Council, number and value of local jobs created, length and size of required distribution system extensions, and estimated annual consumption.

VOLTAGE AND METERING OPTIONS

Primary Voltage Metering Service is available to Industrial customers whose connected transformer size is 500 kVA or larger. Usage discounts are available to new customers upon application. Demand discounts are no longer available to new customers. Discounts are not cumulative.

Billing discounts are available to qualified customers who choose one of the following options:

TRANSFORMER SUPPLIED BY:	METERING ON	USAGE DISCOUNT	OR	DEMAND DISCOUNT
Customer	Secondary	1%		10%
HBPW	Primary	2%		
Customer	Primary	3%		(Included Above)

MUNICIPAL-CITY SERVICE RATE

Applicable to all City departments at one location as 60 cycle, single phase or three phase service, through one meter at the secondary voltage available from the electric distribution system at the customer's location.

RATE

All kwh during month - City Hall, Street Dept., Fire Dept., Police Dept., Humane Society, Civil Defense HQ, and the Welchman House	No Charge
City Parks and Recreation Dept. Tourism Bureau and Molly Brown House, Library, Mark Twain Home Board	\$0.078 per kWh
Single Phase Service	\$25.00 per month
Three Phase Service	\$40.00 per month
Minimum Bill	Same as Monthly Customer Charge

MUNICIPAL-HBPW SERVICE RATE

Applicable to any department of the HBPW at one or multiple locations as 60 cycle, single phase or three phase service, through one or multiple meters at the secondary voltage available from the electric distribution system at the customer's location.

RATE

HBPW Service Center	Demand – No Charge Energy – No Charge
Water Treatment Plant	Demand - \$3.50/kw-month Energy – 0.065/kWh
Wastewater Treatment Plant	Demand - \$3.50/kw-month Energy – 0.065/kWh
All Other Locations	Applicable Commercial or Industrial Rate

Customer Charge

HBPW Service Center	No Charge
Water Treatment Plant	No Charge
Wastewater Treatment Plant	No Charge
All Other Locations	Applicable Commercial or Industrial Rate

NET ENERGY BILLING SERVICE

Available to Small Qualifying Facility (SQF) of 50 kW or less capacity who offsets energy delivered by the HBPW.

Energy used by the SQF in excess of energy delivered by the SQF at the same site during the same billing period shall be billed in accordance with the appropriate retail electric rate. For a demand metered SQF, the entire kW demand supplied by the HBPW at the same site during the same billing period shall be billed to the SQF according to the industrial demand charge rate. Interconnection charges will be assessed by the HBPW on an individual basis for all costs associated with addition to or modification of HBPW facilities to accommodate the SQF. The voltage and phase of the SQF generator must be consistent with the existing service and approved by the HBPW. The SQF must maintain a power factor of its generator as close to unity as possible consistent with HBPW operating practice.

RATE

All kWh <u>used</u> during the month	Applicable Retail Rate
All kWh <u>delivered</u> during the month	\$0.065/kwh
Customer Charge	Applicable Retail Rate
Minimum Bill	Same as Monthly Bill
