Public Notice
Martin Street Stormwater and Water Repairs

Construction of Martin Street's **Stormwater and Water Repairs Project** will be starting on October 12th, 2020. This construction project consists of infrastructure improvements to the Martin Street Corridor including the replacement of the underground storm sewer, sanitary sewer, water mains, and road repairs. During construction, Martin Street will be closed completely to vehicle traffic. Necessary accommodations will be coordinated with affected residents.

The work is expected to be substantially completed by December 15th 2020, barring unforeseen problems and weather conditions. Construction in your vicinity may not take place in one continuous time as there are several phases of construction. Except for special circumstances, normal work hours will be between 7:00 a.m. and 6:00 p.m., Monday through Friday.

At the start of the project, Fulton Street will be closed at Martin Street starting Monday October 12th through Tuesday October 27th. Alternate routes must be used during this time.

During construction we will provide updates on our website, at www.hannibalbpw.org. Questions and responses should be directed to HBPW's stormwater department 573-221-8050. We would like to thank you in advance for your patience and cooperation with this project. If you have any questions or would like additional information, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mathew Munzlinger'.
